Forward-Looking Statements

This presentation contains forward-looking statements within the meaning of applicable securities laws. The use of any of the words “anticipate”, “plan”, “continue”, “expect”, “estimate”, “objective”, “may”, “will”, “project”, “should”, “predict”, “potential” and similar expressions are intended to identify forward-looking statements. Although the Company believes that the expectations and assumptions on which the forward-looking statements are based are reasonable, undue reliance should not be placed on the forward-looking statements because the Company cannot give any assurance that they will prove correct. Since forward-looking statements address future events and conditions, they involve inherent assumptions, risks and uncertainties. Actual results could differ materially from those currently anticipated due to a number of assumptions, factors and risks. These assumptions and risks include, but are not limited to, assumptions and risks associated with mineral exploration generally, risks related to capital markets, risks related to the state of financial markets or future metals prices and the other risks described in the Company’s publicly filed disclosure. Management has provided the above summary of risks and assumptions related to forward-looking statements in this presentation in order to provide readers with a more comprehensive perspective on the Company’s future operations. The Company’s actual results, performance or achievement could differ materially from those expressed in, or implied by, these forward-looking statements and, accordingly, no assurance can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what benefits the Company will derive from them. These forward-looking statements are made as of the date of this presentation, and, other than as required by applicable securities laws, the Company disclaims any intent or obligation to update publicly any forward-looking statements, whether as a result of new information, future events or results or otherwise. Neither the Canadian Securities Exchange nor its Regulation Services Provider accepts responsibility for the adequacy or accuracy of this presentation.

Other

This corporate presentation does not constitute a recommendation to buy or sell any securities. Investors should consult with a licensed financial adviser before making any investment decisions.

Qualified Person

The technical information in this presentation has been reviewed and approved by Mr. Peter Lauder, Director of Galloper Gold. Mr. Lauder is the Qualified Person responsible for the scientific and technical information contained herein under National Instrument 43-101 standards.

The Market Opportunity

Gold & Copper

The Right Commodities
at The Right Time

Gold Price:

Hit record highs in 2026

10M oz

Estimated annual gold supply deficit

Top 5

Newfoundland ranking in Fraser Institute
Annual Survey of Mining Jurisdictions

Gold

Gold is consistently hitting new record highs and is expected to continue to benefit from Federal Reserve monetary easing, emerging market buying and rising geopolitical tensions. With the need for new high-grade discoveries in Canada and elsewhere greater than ever, investor interest is focused on companies in favorable jurisdictions with known resources and strong management teams.

Copper

Copper is another key investment theme in 2025-2026. Despite a sharp pullback from its highs in 2024, the metal's primary bull cycle remains intact with strong support around US\$4.00/lb. Analysts expect copper to drive a low-carbon future with demand expected to outstrip supply over the coming years.

Newfoundland and Labrador:

Consistently among the top-ranked mining jurisdictions in the world in the Fraser Institute's Annual Survey of Mining Companies

Why Glover Island?

Galloper is the Only Mineral Claims Owner on Glover Island

CSE: BOOM | OTC: GGDCF | FRA: W9F

Newfoundland's Next High-Impact Discovery

~116.6 sq. km property package extending 32.5 km along northeast-trending mineralized structures (separate gold and copper trends).

Awarded former provincially held claims highlighted by a historic gold resource over a small footprint - now Extended Map Stake Licence 039547M.

Favorable geological setting along the regional Baie Verte Brompton Line-Cabot Fault Zone, a major boundary between the Humber and Dunnage Zones.

Targeted deposit types: structurally controlled orogenic gold and copper-gold-enriched VMS.

On-grid power extends onto Glover Island; access by barge or helicopter.

Updated NI 43-101 MRE completed April 2026 with significant resource growth. New 43-101 Technical Report pending.

2024 Drilling Results

Lucky Smoke

Galopper's first-ever drilling at Lucky Smoke, 6 km from the known historic Lunch Pond South Extension (LPSE) deposit, delivered very favorable results:

- LS24-02: 15 m @ 2.62 g/t Au, including 1 m @ 18.79 g/t Au
- LS-24-04: 3.80 m @ 6.92 g/t Au
- LS-24-06: 4 m @ 4.59 g/t Au within 21.5 m @ 1.26 g/t Au

Lucky Smoke Zone Metrics

- ~800 m long strike length, ~200 m wide at surface
- Gold mineralization hit at 260 m depth
- Surficial high-grade gold zones up to 20 g/t
- Significant along-strike and down-dip potential

What's Proven

Updated NI 43-101 Mineral Resource Estimate 2026

Lunch Pond South Extension (LPSE) Deposit

Category	Tonnes (Mt)	Grade (g/t Au)	Contained Au (koz)
Indicated	3.124	1.20	121
Inferred	6.692	1.02	219
Total	9.816	1.08	340

Resource Growth vs. 2012

- **+62 koz Indicated** (from previous historical estimate)
- **+99 koz Inferred**

Previous 2012 historical MRE: ~178,800 oz Au (Indicated + Inferred) at higher cut-off grades (0.5 g/t open pit / 2.0 g/t underground).

LPSE Deposit Highlights

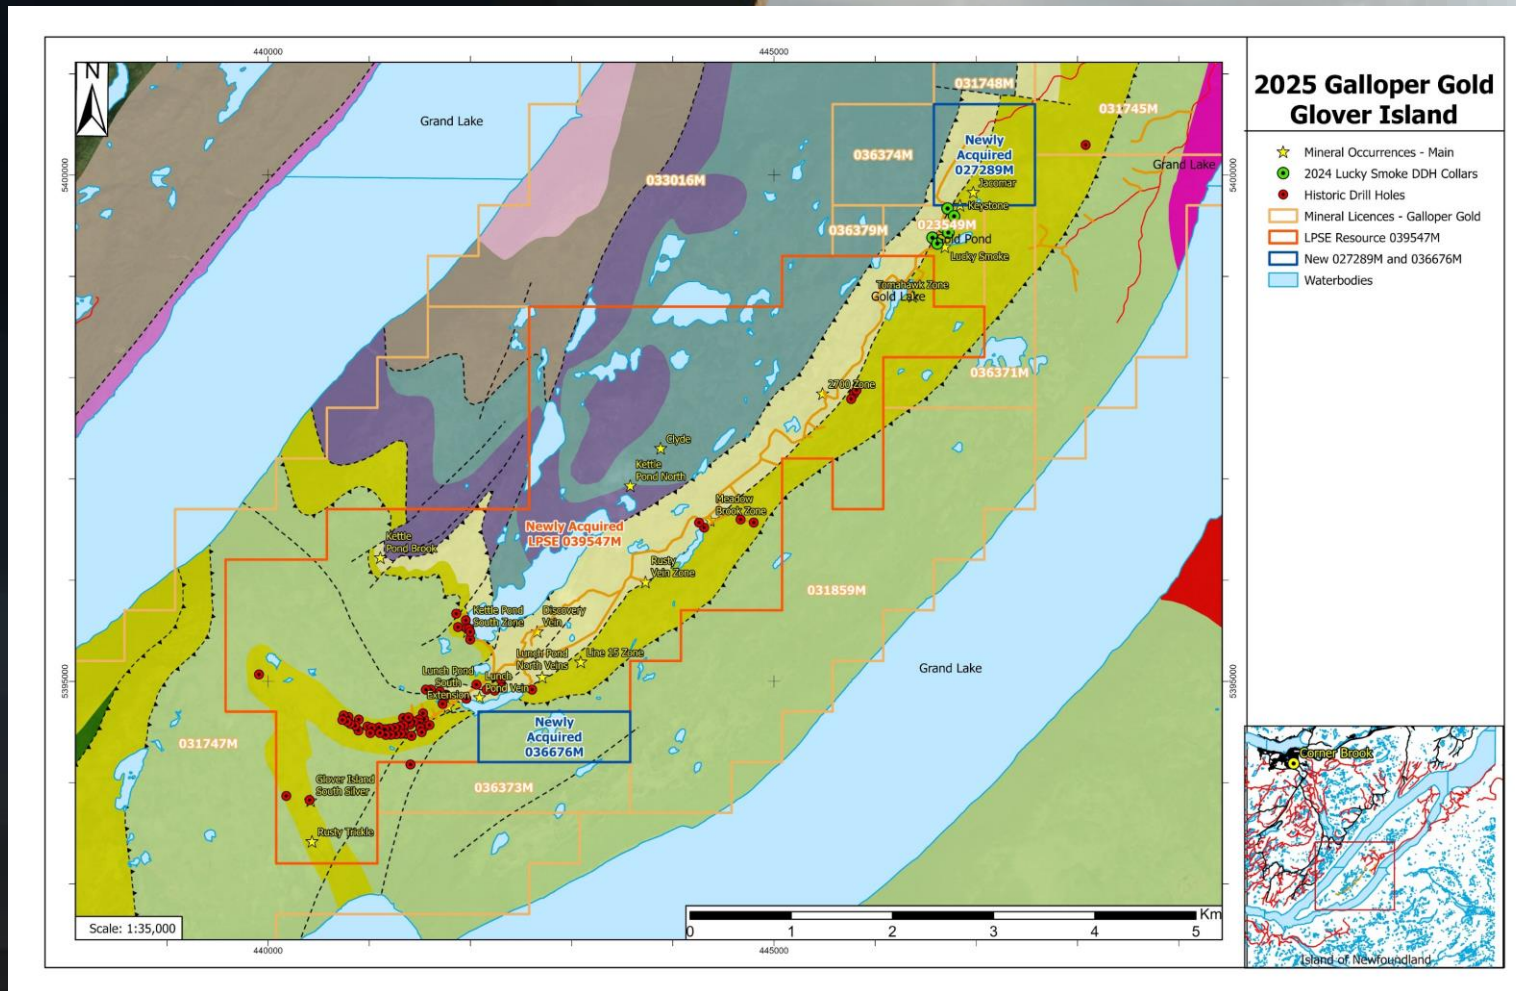

- Potential open pit and future underground development scenarios.
- Kettle Pond Formation hosts gold along the full length of the island
- ~10,000 m of historical drilling delineated the resource over a small footprint
- **New 43-101 Technical Report pending**

Glover Island

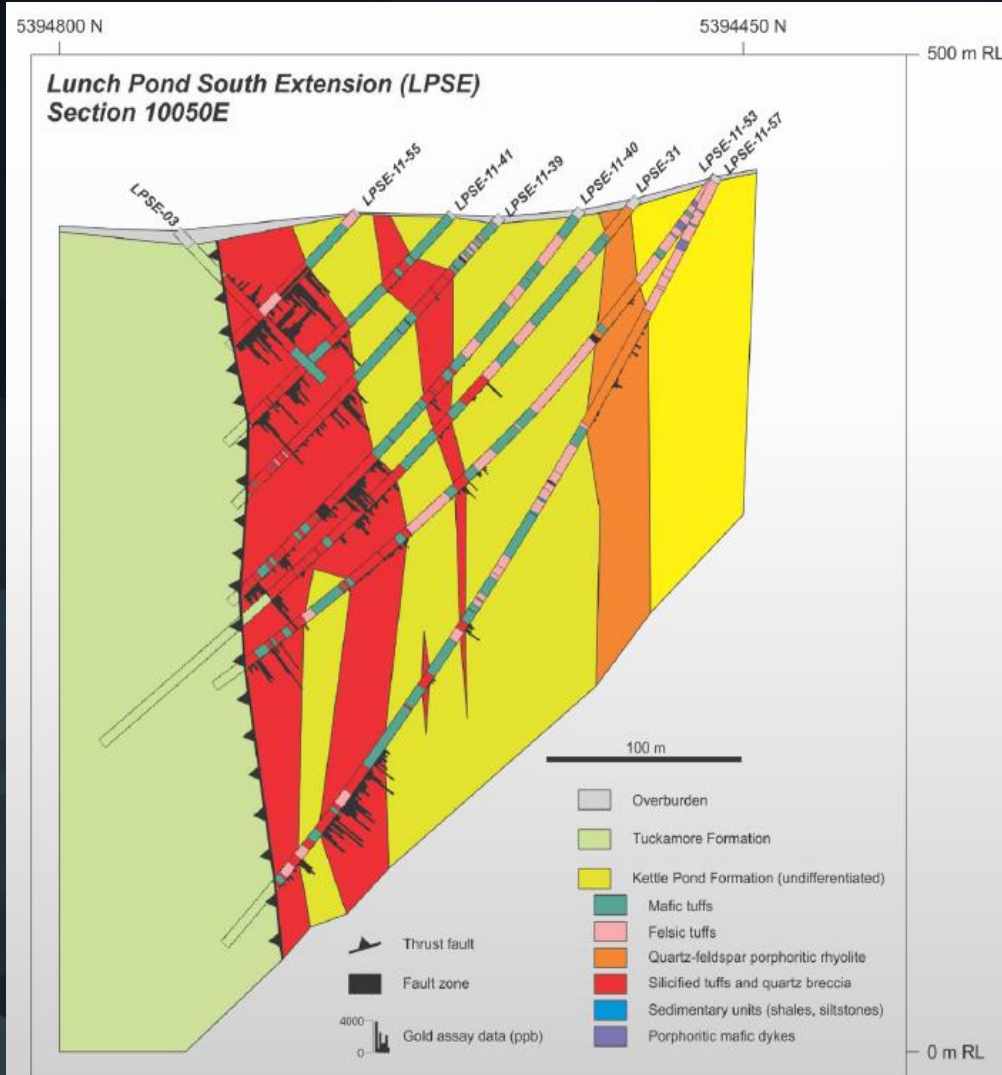

Kettle Pond Formation

Yellow/Green shaded are the Kettle Pond Formation which run the length of the island and have mineralization documented along it's length.

CSE: BOOM | OTC: GGDCF | FRA: W9F

Lunch Pond South Extension (EML)

Exploration

Existing Resource & Near-Deposit Growth

LPSE Deposit - Room to Grow

The current 340 koz resource at LPSE represents only a small portion of the mineralized potential along the Kettle Pond Formation, which runs the length of Glover Island. Historical drilling ended in 2012 and covered only a fraction of that horizon.

Growth Drivers

- Resource remains open along strike and at depth
- Historical drilling covered only a small footprint of the mineralized horizon
- 2026 drill program targeting expansion along strike and infill for category upgrades
- New lower 0.25 g/t cut-off captures additional near-surface ounces amenable to open pit
- Updated NI 43-101 Technical Report pending

Resource Snapshot

- 340 koz Au total (Indicated + Inferred), up from ~179 koz in the 2012 historical estimate
- Indicated: 3.124 Mt @ 1.20 g/t Au
- Inferred: 6.692 Mt @ 1.02 g/t Au
- Deposit remains open at depth for potential underground component

Lucky Smoke | Emerging New Discovery

6 km NE of LPSE Deposit

Galloper completed its first-ever 6-hole drill program at Lucky Smoke in late 2024, intersecting mineralization wider than projections in historic drillholes. The orebody continues deeper than previously understood, with significant along-strike and down-dip potential. Lucky Smoke warrants further significant amounts of drilling.

Key Drill Results

- **LS24-02:** 15 m @ 2.62 g/t Au, including 1 m @ 18.79 g/t Au, starting at 137 m downhole
- **LS-24-04:** 3.80 m @ 6.92 g/t Au starting at 146.5 m, above 23.5 m @ 0.72 g/t Au from 32.5 m surface
- **LS-24-06:** 4 m @ 4.59 g/t Au within 21.5 m @ 1.26 g/t Au from 117 m to 144.5 m

Lucky Smoke Mineralized Zone

- ~800 m strike length
- ~200 m width at surface
- 260 m depth of gold mineralization
- Up to 20 g/t channel sample at surface

Multiple gold zones at surface, with adjacent historic reporting of mineable grades at the Keystone and Tomahawk showings.

Overall Land Package

District-Scale Opportunity

Glover Island represents a district-scale exploration opportunity with multiple gold and copper targets across the full 32.5 km length of the property.

Key Property Areas

- **LPSE Deposit** - 340 koz Au resource, updated April 2026
- **Lucky Smoke** - Emerging new discovery 6 km NE
- **Keystone & Tomahawk** - Historic mineable-grade showings
- **Western Side** - Multi-km copper anomaly (soils, VTEM, mag) previously unexplored
- **EML (039547M)** - Former provincially-held claims awarded July 2025
- **New claims** - Recently acquired, expanding the package

Galopper controls the full length of the mineralized Kettle Pond Formation horizon on the island. Historical prospectors focused only on the Lunch Pond area, leaving the vast majority of the property unexplored. Approximately 18 km of drilling has been completed across the island, including the 2024 Lucky Smoke program. Roughly 13 km of drilling was incorporated into the current MRE, with the majority concentrated within one focused area of the property.

Infrastructure Advantage

- Newfoundland power grid extends onto the island
- Access by barge or helicopter
- Located in western Newfoundland near established mining infrastructure
- Pro-mining provincial government

Galopper plans a robust and aggressive exploration program throughout 2026.

2026 Catalysts Timelines

Why Galloper Stands Out

Existing NI 43-101 Resource - 340 koz and growing

District-Scale Land Package - ~116.6 sq. km with 32 km of mineralized structures

On-Grid Power - Rare for an island exploration property

Strategic Shareholder - TSX-listed DPM Metals is Galloper's largest shareholder

Valuation Gap - 340k oz Resource valued at a ~\$7M highlights deep discount to peers

Share Structure & Investment Highlights

Share Structure

(as of June 1, 2026)

Exchange	CSE (BOOM)
Common Shares	119,253,828
Stock Options	7,050,000
Warrants	46,850,347
Fully Diluted	173,154,175

* TSX-listed DPM Metals is Galloper Gold's largest shareholder.

CSE: BOOM | OTC: GGDCF | FRA: W9F

Why Invest?

Proven Resource: 340 koz Au (NI 43-101 compliant) with significant growth potential.

Right Commodity, Right Time: Gold at record highs above \$4,500/oz with strong macro tailwinds.

Discovery Upside: Lucky Smoke emerging discovery plus untested targets across 116.6 sq. km.

Tight Structure: ~119,253,828M shares outstanding with strategic DPM Metals as anchor investor.

Near-Term Catalysts: 43-101 Technical Report, 2026 drill program, and steady news flow.

Massive Valuation Gap: 340k oz Resource valued at a ~\$7M highlights deep discount to peers

Top-Tier Jurisdiction: Newfoundland consistently ranked among best mining jurisdictions globally.

Leadership Team

CSE: BOOM | OTC: GGDCF | FRA: W9F

Hratch Jabrayan
Chief Executive Officer/Director

Mr. Hratch Jabrayan, Gallopers President and CEO, is an accomplished, high-energy and values-driven business leader with a proven track record of operational growth, efficiency, bottom-line success, and wealth creation with resource and non-resource entities in North America and around the world. He brings more than two decades of high-level resource sector experience to Galloper, including 7 years with Dundee Precious Metals where he advanced the company's interests in Armenia and globally.

Bryan Loree
Chief Financial Officer

Mr. Loree has held senior accounting roles for public and private companies in various industries including renewable energy, exploration, and construction. Prior to entering the accounting field, Mr. Loree gained experience as an investor relations manager. He holds a Certified Management Accountant designation, a Financial Management Diploma from the British Columbia Institute of Technology, and a BA from Simon Fraser University.

Bill de Jong, Lawyer
Corporate Legal Counsel/Securities Specialist

Mr. de Jong is a capital markets specialist in the areas of securities (regulatory and stock exchange compliance), mergers and acquisitions, and corporate finance, working with both investment banks and issuers. He is experienced as both in-house counsel and as a corporate development professional for publicly listed companies, and as a director for multiple public, private and not-for-profit entities.

Bryan Sparrow, P. Geo.
Vice President Geology and Exploration

Mr. Sparrow has 20 years of experience in Newfoundland and Labrador across various geoscientific disciplines in mining, mineral exploration, and geotechnical analysis. He has a successful track record of geoscientific data analysis and integration within the natural resources industry. Bryan holds a B.Sc. (Hons) from Memorial University in Newfoundland. Bryan is a Professional Geoscientist registered in Newfoundland and Labrador.

Peter Lauder, P. Geo.
Exploration Manager

Mr. Lauder is a senior level mine and exploration geologist with more than 20 years' experience (Goldcorp, IAMGOLD and BHP Canada) in the design, implementation and management of underground and surface exploration projects. He has managed all aspects of mining and exploration projects from early to advance stage, to full production with emphasis on safety and process driven exploration leading to successful resource estimation and project development.

Jan Urata
Corporate Secretary

Jan Urata is the Founder and President of Take It Public Services Inc. since 2011, a highly motivated legal support service for top tier and junior issuers in a variety of industry sectors. She is well versed in taking corporate entities from initial seed capital stage to publicly listed status. Her services include corporate secretarial to regulatory filings to complex transactions while offering corporate sustainability through cost-effective, efficient and timely services.

Vahan Ajamian, CPA, CA, CFA
Capital Markets Advisor

Mr. Ajamian has nearly 20 years of capital markets experience, consisting of both sell side experience at TD Securities and Beacon Securities, as well as on behalf of many issuers interfacing with the street. His expert opinions have been frequently quoted by media outlets like CBC and BNNBloomberg.

Board of Directors

CSE: BOOM | OTC: GGDCF | FRA: W9F

Hratch Jabrayan
Chief Executive Officer/Director

Mr. Hratch Jabrayan, President and CEO, is an accomplished, high-energy and values-driven global mining leader with a proven track record of operational growth, efficiency, bottom-line success, and wealth creation with resource and non-resource entities in North America and around the world. He brings more than two decades of high-level resource sector experience to Galloper, including 11 years with Dundee Precious Metals where he advanced the company's interests in Armenia and globally.

Stephen Robert Shea
FCPA, FCA, MBA, BSc, ICD.d, Director

As Managing Partner, Talent at Ernst & Young, Mr. Shea was a critical member of the Canadian Firm's Executive Committee for more than decade until his retirement in 2022. EY Canada is an integrated professional services firm with more than 400 partners, 6,500 professionals and revenue more than \$1.5 billion. Mr. Shea led the EY's integrated client service delivery for several years to major companies such as Barrick Gold Corporation and Irving Oil. Earlier in his career he was an audit partner.

Dr. Iliya Garkov
Director

Dr. Garkov is the Executive Vice-President and Chief Operating Officer for Dundee Precious Metals (TSX: DPM). He has over three decades of international mining experience in Bulgaria, Australia and Armenia. Since 2003, when DPM acquired its assets in Bulgaria, he has held a number of leadership roles within the company and was appointed to his current position in February 2024, helping grow the Toronto-based producer's profitability and its market capitalization to approximately \$2.5 billion. Dr. Garkov has a PhD in mining engineering from the University of Mining and Geology St. Ivan Rilski in Bulgaria and is a graduate of the London Business School Senior Executive Program.

Souren Sarkissov
Director

Mr. Sarkissov is a well-known Toronto based entrepreneur and investor with more than 25 years of dedication to the growth and management of various privately held companies. His extensive business background reflects a strong commitment to building successful enterprises from ground up and guiding them to substantial growth. Souren has played a pivotal role in launching several businesses, guiding them from inception to becoming multi-million-dollar enterprises. He currently serves as Chairman of the Board of a privately held multi-national Oil and Gas company and is the CEO of a Toronto based multi million-dollar enterprise. Mr. Sarkissov holds a master's degree in electrical engineering and is actively engaged in the mining and business communities in Toronto.

Hon. Seamus O'Regan
Director

The Honourable Seamus O'Regan has served as Canada's Natural Resources Minister, Minister of Indigenous Services, Minister of Veterans Affairs and Associate Minister of National Defence, and Minister of Labour and Minister for Seniors. He was first elected Member of Parliament for St. John's South-Mount Pearl in 2015 and subsequently re-elected in 2019 and 2021. He was born in St. John's, Newfoundland, and raised in Goose Bay, Labrador. He studied politics at St. Francis Xavier University and University College, Dublin, and marketing strategy at INSEAD, near Paris. He graduated Master of Philosophy from the University of Cambridge, with a dissertation on Indigenous participation in natural resource development. Prior to politics, he was a host of Canada's leading morning news programme, Canada AM, for ten years. Today, he is Senior Business Advisor with Stewart McKelvey, the largest law firm in Atlantic Canada, and Strategic Counsel to Global Public Affairs. He is also Chair of the CoIC Innovation Centre in St John's.
